

BOB SMITH

Python Backend Engineer

bob.smith@email.com | Austin, TX | +1-555-0102

SUMMARY

Backend Engineer with 5 years of experience designing and building robust APIs, microservices, and data pipelines using Python, Django, and FastAPI. Strong background in database design and cloud infrastructure.

EXPERIENCE

Senior Backend Engineer · DataFlow Systems (2021 - Present)

- Designed and implemented RESTful APIs serving 10M+ requests/day using FastAPI
- Built an event-driven microservices architecture with RabbitMQ and Docker
- Optimized PostgreSQL query performance, reducing average response time by 70%
- Implemented caching layer with Redis, improving throughput by 3x
- Led database migration from MySQL to PostgreSQL with zero downtime

Backend Developer · CloudSolutions Inc. (2019 - 2021)

- Developed Django REST Framework APIs for an e-commerce platform
- Created automated data pipelines processing 5TB+ of data daily using Apache Airflow
- Implemented authentication and authorization system using JWT and OAuth 2.0
- Wrote comprehensive integration tests achieving 95% code coverage

Junior Python Developer · CodeCraft Labs (2018 - 2019)

- Built internal tools and automation scripts using Python and Bash
- Developed web scraping solutions with Scrapy and BeautifulSoup
- Contributed to open-source Python libraries

TECHNICAL SKILLS

- Languages: Python, SQL, Bash, Go (basic)
- Backend: Django, FastAPI, Flask, Celery, SQLAlchemy, Alembic
- Databases: PostgreSQL, MySQL, Redis, MongoDB, Elasticsearch
- DevOps: Docker, Kubernetes, AWS (EC2, S3, Lambda, RDS), GitHub Actions
- Data: Apache Airflow, pandas, NumPy
- Testing: pytest, coverage, factory_boy, tox

EDUCATION

B.S. Computer Science · University of Texas at Austin (2018)

Certifications: AWS Certified Solutions Architect - Associate
