

DAVID LEE

DevOps / Cloud Engineer

david.lee@email.com | Seattle, WA | +1-555-0104

SUMMARY

DevOps Engineer with 4 years of experience in cloud infrastructure, CI/CD pipelines, containerization, and infrastructure as code. Passionate about automating everything and building reliable, scalable systems on AWS and GCP.

EXPERIENCE

DevOps Engineer · CloudScale Inc. (2022 - Present)

- Managed Kubernetes clusters serving 200+ microservices across 3 environments
- Built CI/CD pipelines using GitHub Actions, ArgoCD, and Helm charts
- Reduced infrastructure costs by 40% through right-sizing and spot instance strategies
- Implemented infrastructure as code using Terraform managing 500+ AWS resources
- Designed monitoring and alerting systems using Prometheus, Grafana, and PagerDuty
- Achieved 99.95% uptime SLA for production services

Cloud Engineer · StartupOps (2020 - 2022)

- Migrated on-premises infrastructure to AWS, reducing operational overhead by 60%
- Containerized 30+ applications using Docker and deployed to ECS Fargate
- Set up automated backups and disaster recovery procedures
- Implemented secrets management using AWS Secrets Manager and HashiCorp Vault
- Built self-service infrastructure provisioning platform using Terraform and Go

Systems Administrator · TechHosting Co. (2019 - 2020)

- Managed 100+ Linux servers (Ubuntu, CentOS) in production environment
- Automated server provisioning with Ansible playbooks
- Configured Nginx, HAProxy load balancers, and SSL/TLS certificates
- On-call rotation for 24/7 production support

TECHNICAL SKILLS

- Cloud: AWS (EC2, S3, Lambda, EKS, RDS, CloudFront, IAM), GCP (GKE, BigQuery)
- Containers: Docker, Kubernetes, Helm, ArgoCD, ECS
- IaC: Terraform, Ansible, CloudFormation, Pulumi
- CI/CD: GitHub Actions, Jenkins, GitLab CI, ArgoCD
- Monitoring: Prometheus, Grafana, Datadog, ELK Stack, PagerDuty
- Languages: Python, Bash, Go (intermediate)
- Networking: VPC, Route 53, CloudFront, VPN, TLS/SSL
- Databases: RDS PostgreSQL, DynamoDB, ElastiCache, MongoDB Atlas

EDUCATION

B.S. Information Technology · University of Washington (2019)

Certifications: AWS Certified DevOps Engineer - Professional, CKA (Kubernetes)
